

FORD FAIRLANE & TORINO RESTORATION PARTS

SilentDrivePRO SOUND DAMPENING

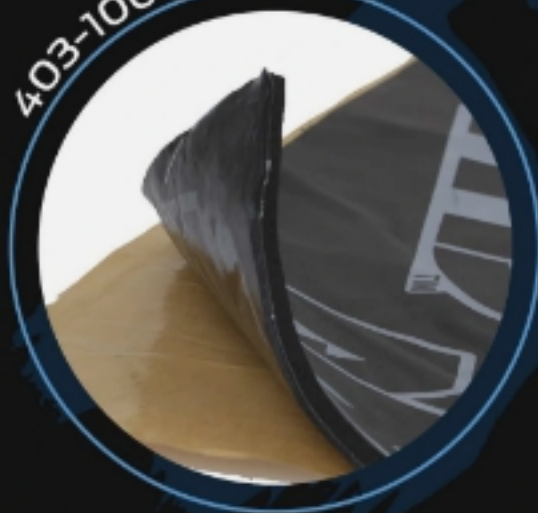

AMD's new SilentDrive Pro Mat Sound Deadener offers premium noise reduction with three different versions to suit various needs. Two of the variants feature a 2mm thickness, with one showcasing blue lettering and the other white lettering for aesthetic preferences. For those seeking enhanced sound insulation, a thicker 7mm option is available. Each box includes 10 sheets, covering a total of 43 square feet, making it an excellent solution for reducing vibrations and road noise in vehicles or other applications requiring soundproofing.

403-1000-857

INDEX

66-67 FAIRLANE

After years of only offering the small-block 221, 260, or 289 V8 (except for the very limited edition thunderbolt and Comet AF/X drag cars), Ford and Mercury finally designed the Fairlane, Comet, and Cyclone to accept the big-block FF, 390 V8. In '66, all GT models had the 390 ci 335 hp V8 as standard equipment. A very few '66 Fairlane GT's could have the 289 V8 as well as the 390 or 427 V8, and '67 comets could

have the 427 V8 as well (very rare cars!). The Ranchero switched to the Fairlane platform for the first time in '67.

68-69 FAIRLANE/TORINO

For '68 the Torino and Cyclone offered a sleek fastbak roof line that added top end speed on the NASCAR tracks. Dodge responded in '69 with the special Charger 500 models with a sleek front end and a fiberglass plug filling in the back window, so Ford and Mercury responded with the awesome '69 Talladega and Cyclone Spoiler II with their own flush front end styling, which then prompted Dodge to craft the wild Charger Daytona with aero front end and wild rear wing.

On the street, the 427 V8 was detuned to 390 hp but only available with automatic 428 Cobra Jet rated at a detuned 335hp. In '69, the high performance Torino Cobra and Cyclone CJ 428 were first offered.

70-71 TORINO

In '70, the 429 Cobra-Jet was offered with or without Ram Air, and the awesome Drag Pack was available which turned them into the 427 Super Cobra-Jet. Cobra and Spoiler models were continued. This was the pinnacle of Ford Mid-Size Performance!

COWL

THE LOWER COWL IS A COMMON RUST AREA

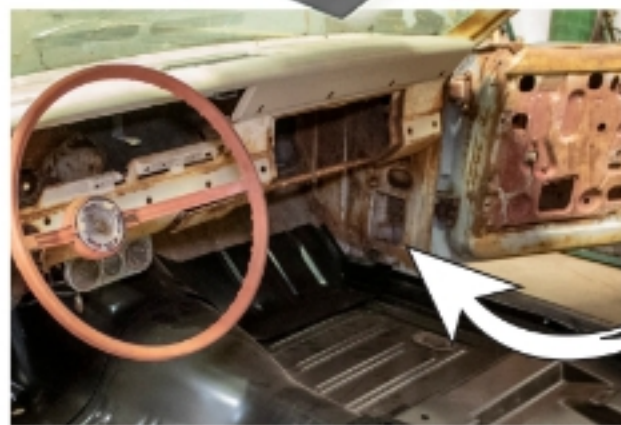

Reproduction upper & lower cowl panel for 66-67, & 68-69 Ford Fairlane, Falcon & Ranchero and 66-67 Mercury Comet & Cyclone.

The lower cowl is a common area for water to collect and rust out over time. This is a needed replacement on almost every Fairlane.

Made like OE. Each piece is stamped from high quality OE gauge steel on our exclusive new tools and features the correct shape, size, bends and holes, like original. EDP coated to help protect against rust and corrosion.
